

## Uninstall Cisco AnyConnect Secure Mobility Client on Apple Mac Computer

1. Find the Cisco AnyConnect Application and drag it to the trash can.
2. Go > Utilities.

3. Open the Terminal utility.

4. Type the following at the prompt, press enter, then enter your local machine password:

```
sudo pkgutil --forget com.cisco.pkg.anyconnect.vpn
```

```
dlspeivey — bash — 80x24
