

## Uninstall the Cisco AnyConnect Secure Mobility Client in Linux

1. Open a terminal window and type the following:

```
sudo /opt/cisco/anyconnect/bin/vpn_uninstall.sh
```

Example terminal output shown below:

```
username@computername-ubuntu:~/Downloads$ sudo  
/opt/cisco/anyconnect/bin/vpn_uninstall.sh  
Uninstalling Cisco AnyConnect Secure Mobility Client...  
Successfully removed Cisco AnyConnect Secure Mobility Client from the system.
```
